## Tortilla Chip Serving Cabinets

*The lower access door opens to form a shelf, easing the serving of chips into baskets and reducing breakage.*

### Model TCD-1PT “Pass Thru”

- **44 gallon capacity, that’s equivalent to 10 drawer food warmers.**
- **Stainless steel construction inside and out.**
- **Suitable for self-service or table services.**
- **Designed for counter service, free standing or set into wall openings.**
- **Thermostatic temperature control reduces operating costs.**
- **Customer satisfaction guaranteed.**
- **It’s simple to use, just load from the back and service from the front.**

*Serving cabinet shown with .220 thick clear Lexan loading doors. Anodized aluminum doors available as an option.*

The convection style thermostatically controlled heating system maintains constant temperatures by moving heated air throughout the interior.

The entire front door assembly swings open for cleaning. Just unsnap the latches, remove the perforated interior bottom panel and wipe down the interior surfaces. Daily cleaning ensures fresh chips every day.

**Serving satisfied customers since 1989. Simply better than the rest.**

# TCD-1 Pass Thru

## 44 Gallon Chip Capacity

**Option: .250 thick anodized aluminum loading doors.**

The entire front door assembly swings open for cleaning. A removable perforated interior bottom panel is easily removed to make cleaning an easy task. For best results, the cabinet interior should be cleaned daily.

**The TCD-1PT is designed for** counter top service, fitted into a wall opening permitting the chips to be loaded in the kitchen or attached to a portable stand. (See Model TSS for specifics on the stand)

Double pan access door opens to form a shelf, easing the loading of chips and reducing breakage or spills.

A special interior baffle directs the flow of chips from the rear to the front ensuring the chips you serve will always be in peak condition.

### **Warranty:**

Texican Specialty Products, hereinafter referred to as the seller, warrants equipment manufactured by it to be free from defects in materials and workmanship for which it is responsible. Seller will be responsible for all labor 90 days after date of original installation and one full year for parts. The seller, however, will not be responsible for customer abuse, physical damage or misuse of the equipment.

Repairs will generally be performed by approved/authorized service agencies.

### **Electrical service:**

120/60/1 13.6 amps  
8'-0" cord and plug.

Crated weight: 160 lbs.
